1.4. Have you discussed your proposal with United St Saviour's Charity staff?

- Yes
- No

1.5. Eligibility criteria and programme themes

Eligibility criteria

The Community Engagement Programme supports:

- **Constituted community groups, including charities, social enterprises, companies limited by guarantee with a social purpose and faith based organisations as long as activities are not specifically connected with religion.**
- **Organisations based within, or outside, our area of benefit as long as they are delivering initiatives that benefit north Southwark residents. Organisations based outside our area of benefit will be expected to have good local knowledge and connections, and bring something that adds value to local organisations and/or clearly increases benefit to people from north Southwark.**

The Community Engagement Programme does not support:

- **Individuals, including sole traders**
- **For profit companies**
- **Local authorities and public bodies**
- **Schools, or similar, whose project is solely targeted at their own pupils or students**
- **Projects where the main beneficiaries are living or working outside our area of benefit**
- **Purely religious, political or animal welfare activities**

- Requests above the value of £5,000.

Community Engagement Programme themes

Our three key programme themes for 2017 onwards are:

Strong, resilient communities: connecting, enabling and strengthening communities (of place and of interest) within north Southwark. We want to fund initiatives which aim to:

- **Build and strengthen networks within, and between, communities**
- **Foster skills and confidence within communities**
- **Enable communities to influence their environment and futures**
- **Come up with ideas and deliver their own local projects**
- **Build on the rich culture and history of North Southwark**
- **We want people to have connections, friends and support from those around them.**

Positive ageing: reducing isolation and increasing wellbeing amongst north Southwark's older residents. We want to fund initiatives which aim to:

- **Reduce loneliness and isolation for older people**
- **Increase mental, physical and/or financial wellbeing for older people**
- **Build relationships between old and young**
- **Enable older people to contribute towards their community (and vice-versa)**
- **Increase the visibility and voice of older people**
- **We want Southwark's older residents to have fun!**

Levelling the playing field: supporting population groups disproportionately experiencing social and economic disadvantage in north Southwark. We want to fund initiatives which aim to:

- **Enable groups to overcome social and economic disadvantage. For example by building skills, confidence and connections to improve their life chances and opportunities**
- **Provide targeted services to particularly disadvantaged groups**
- **Support particularly disadvantaged groups to integrate and access mainstream services**
- **Enable disadvantaged groups to benefit from Southwark's wealth of cultural and creative institutions**

The Community Engagement Programme will primarily support projects meeting the Strong, resilient communities theme that are delivered by constituted organisations and demonstrably benefit people from north Southwark. The Programme may also consider projects that fall into the Positive ageing and Levelling the playing field themes that are seeking smaller sums of money. Requests to the Community Engagement Programme may be up to a value of £5,000, although the average grant awarded in 2017/18 was £2,200.
